PROFESSIONAL SUMMARY

Entrepreneurial Full Stack Developer and B.E. Information Science Engineering student (1st Year CGPA: 8.3/10) at VTU with a strong track record of building scalable AI-powered web platforms and leading international tech projects. Founder & CEO of Express Your Thoughts and Lead Developer at Naviguide (France). Recognized globally as AIVENTRA Hackathon Winner (Chennai), Top 10 at lablab.ai AI Agents Hackathon, and 5th Place at ACT IN SPACE 2026 New Caledonia. Microsoft Student Ambassador with experience in RAG-based AI research and cross-border product development.

TECHNICAL SKILLS

Programming Languages: Python, C, JavaScript

Web Development: HTML5, CSS3, React.js, Node.js, Django

Mobile & App Dev: Android Studio, Mobile Application Development

Databases: MongoDB, Firebase Cloud Firestore

Cloud & DevOps: Firebase, OVH Cloud, Docker, Git, VS Code

AI & Analytics: Generative AI, RAG, Predictive Analytics, Knowledge Graphs

Other: REST APIs, Linux/Ubuntu, AI-discoverability Optimization, Project Management

PROFESSIONAL EXPERIENCE

Express Your Thoughts

Bengaluru, India

Founder & CEO

September 2025 – Present

- Founded and architected a full-stack idea-sharing platform (expressyourthoughts.live) using Firebase authentication and Cloud Firestore, scaling to serve a growing global user base within the first year.
- Curated 100+ hackathons, internships, and innovation opportunities, driving consistent week-over-week user engagement and platform retention.
- Led end-to-end product strategy, UI/UX design, and solo engineering sprints, taking the product from concept to production in under 3 months.

Page Launch

Vancouver, BC (Remote)

Intern

April 2026 – Present

- Built AI-discoverable websites for professionals and small businesses, optimizing discoverability across ChatGPT, Gemini, and Perplexity in addition to traditional search engines.
- Delivered production-ready client websites within accelerated timelines, measurably improving client online visibility and inbound lead generation.
- Implemented AI-first discoverability strategies by collaborating cross-functionally to define technical requirements and deploy scalable web solutions.

Naviguide (Berry-Mappemonde, France)

New Caledonia (Remote)

Lead Developer

Mar 2026 – Present

Web Developer

Nov 2025 – Mar 2026

- Promoted to Lead Developer within 5 months; led production deployment of a smart maritime navigation platform integrating real-time ocean data, storm avoidance, and waypoint optimization for a 24-month Pacific expedition.
- Built and launched the full project web infrastructure on OVH Cloud, enabling live mid-Pacific sailboat tracking connecting all French overseas territories.
- Contributed to hackathon recognition: Top 10 Finalist at lablab.ai Complete.dev AI Agents Hackathon and 5th Place at ACT IN SPACE 2026 New Caledonia.

SKPS Tonk

Tonk, Rajasthan, India

Mathematics Teacher

July 2024 – November 2024

- Designed and delivered structured secondary-level mathematics curriculum, improving average class assessment scores through inquiry-based instructional strategies.
- Maintained 90%+ student attendance through engaging lesson design while independently building full-stack development expertise in parallel.
- Successfully transitioned into software engineering within the same academic year, demonstrating rapid self-directed skill acquisition.

AWARDS, RESEARCH & CERTIFICATIONS

Awards: AIVENTRA Hackathon Winner – Chennai | Top 10 Finalist – lablab.ai Complete.dev AI Agents Hackathon | 5th Place – ACT IN SPACE New Caledonia 2026 | Microsoft Student Ambassador (2025 – Present) | Science Day Project

Winner

Research: RAG-Based Knowledge Graph Framework for Intent-Driven Innovation Mapping – retrieval-augmented generation and knowledge graphs for AI-powered innovation discovery.

Certifications: Fundamentals of Predictive Project Management (PMI) | AIVENTRA | GenAI Powered Data Analytics Job Simulation (Tata) | Cybersecurity Analyst Job Simulation (Tata) | Complete AI Hackathon Certificate | Ocean Sessions – Water Pollution

EDUCATION

Visvesvaraya Technological University (VTU)

Bengaluru, India

Bachelor of Engineering – Information Science Engineering / 1st Year CGPA: 8.3 / 10

2025 – 2029

Maharshi Dayanand Saraswati University (MDSU)

Ajmer, India

Bachelor of Science

June 2023 – September 2025
